

Size 6

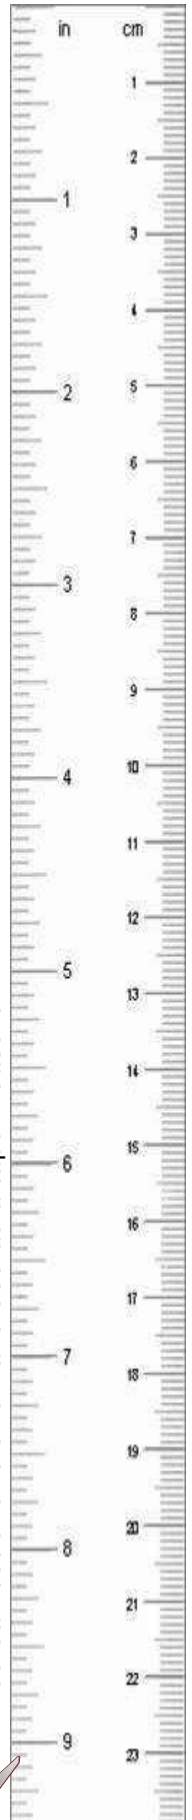

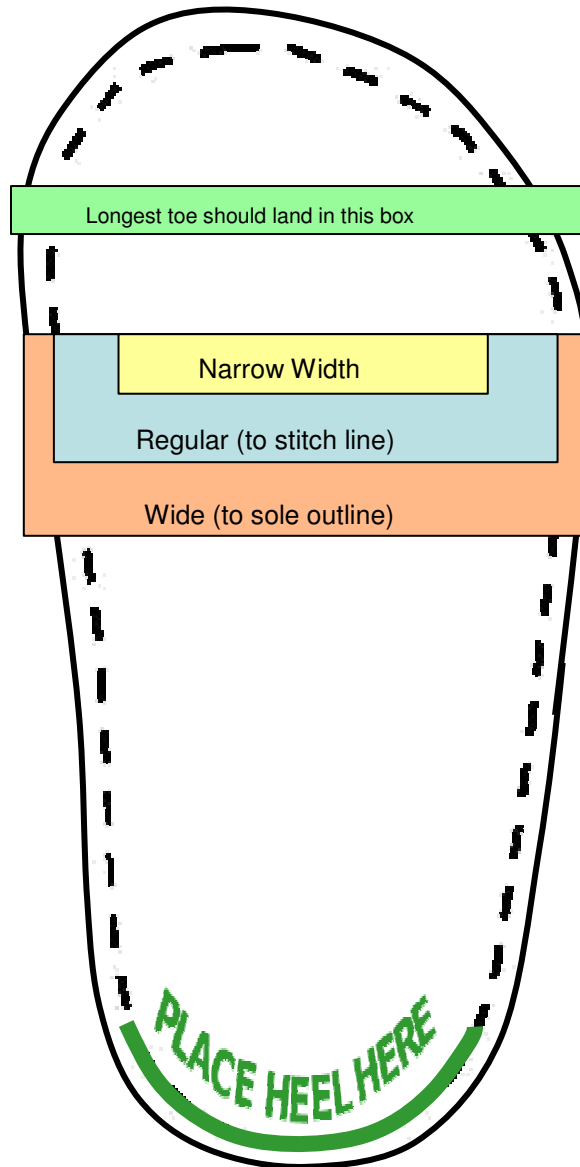

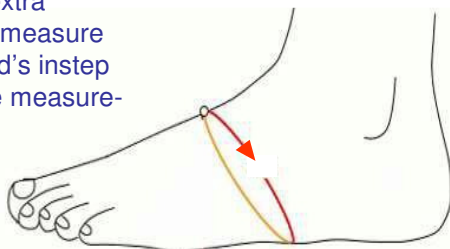

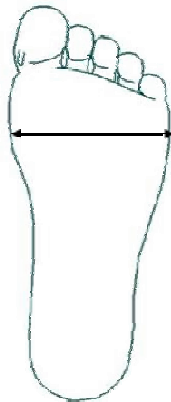

To determine size:

- 1 Print this page. Use a ruler to confirm the scale at right is accurate.
- 2 Have your child stand with their right heel at the heel mark.
 - The longest toe should land within the green toe space.
 - Determine width at the widest part of the foot.
 - For very wide feet (wider than the sole outline) please send a tracing as described below.

Custom Sizing

If your child's foot is hard to fit, you may need a custom width sole or upper. To order custom sizes:

- 1 Have your child stand on a piece of paper and draw an outline of his or her foot. Be sure to keep the pencil straight up and down.
- 2 Measure the outline at the widest point and include the measurement with your order.
- 3 Optional: For extra hard to fit feet, measure around the child's instep and include the measurement with your order.

You can cut this ruler off and use as a tape measure!
