RINGS OF FIRE

For 2-4 players, all ages.

OBJECTIVE

To score the highest amount of points by landing your rings on the targets in the time allotted.

GAMEPLAY

- Divide the rings so that each player has a set of rings of the same color (10 rings each).

- Decide the order in which players will toss their rings, and get a timer ready.

- The first player will stand 8 feet away from the edge of the board. The player will have 20 seconds to toss as many of their rings as they can, one at a time, attempting to land them on the positive point targets.

- Once the player's 20 seconds is up, add up the points scored for that round based on scoring guide on the board.

- Repeat process with the rest of the players until every player has gone twice. The player with the most points at the end of the two rounds wins!
